

Adib Firoz

Frontend | React Developer

My Portfolio - <https://adibfiroz.vercel.app/>

Frontend Developer with 4+ years of experience building fast, scalable, and user-focused web applications. Strong in React, UI/UX, and cross-functional collaboration with a passion for clean, high-quality code and continuous innovation.

WORK EXPERIENCE

Caregility – Frontend Developer, New York, USA - Remote

December 2024 - present,

- From the beginning, I was involved in a new project called iCare. I had the opportunity to select some of the technologies used in building the platform. This project aims to enhance patient care efficiency by providing a platform where doctors and nurses can manage and track patients, with AI automation based.
- I have been responsible for implementing the frontend, including API integrations, components, SEO, resolving bugs and addressing challenges as they arise.

Acoup – Frontend Developer, Dubai, UAE - Onsite

January 2024 - March 2024,

- Delivered responsive designs ensuring an optimal user experience across devices, leveraging media queries and flexible grid systems.
- Contributed to two projects: LMS and Acoup.
- Developed, tested, debugged, and managed code.
- Get familiar with the Laravel PHP framework.

MouthShut.com – Frontend Developer, Mumbai, India - Hybrid

July 2020 - October 2023

- Responsible for the development and maintenance of the company website.
- Led a team for 1.8 years, managing project execution and team coordination.
- Implemented SEO best practices, conducted testing, and optimized web performance.
- Resolved error logs, fixed bugs, and ensured smooth website functionality.
- Worked in an agile environment, contributing to the software development lifecycle.
- Demonstrated strong problem-solving skills, quickly analyzing and resolving issues systematically and efficiently.
